THE NEXT 20 YEARS

Interview with Maria Kelo,
Director of ENQA

Maria Kelo

Maria Kelo is the Director of ENQA, the European Association for Quality Assurance in Higher Education (since 2011). Her tasks within ENQA include managing the work of the ENQA Secretariat, supporting and coordinating ENQA member agencies, managing projects, and represent the association and its members in policy making processes. Maria has expertise in both policy and practice of quality assurance, and speaks regularly in international event

As an expert in EU affairs and especially related to European Higher Education Area (EHEA), how do you see the state of the European higher education system today, and who are the most important players?

I would say that what is probably true worldwide, is also true in Europe: e-learning and other flex-

facilitators of (national) level dialogue, promoters of good practice, having an increasing support role. This became very evident in the past year, when agencies supported institutions by providing advice, submitting guidance, and facilitating exchanges in the sector in the turbulent times of uncertainty.

CREATING TRANSPARENCY

Colin Tück works at EQAR since its establishment in 2008. The independent organization in charge of establishing and managing a register of quality assurance agencies was founded by the E4 group (ENQA, ESU, EUA, EURASHE) during the Bologna Process. EQAR launched the Database of External Quality Assurance Results (DEQAR) in 2018.

Colin Tück

Colin Tück is the Director of the European Quality Assurance Register for Higher Education (EQAR). He has been working for EQAR since October 2007, initially as Project Manager on behalf of its founding members (ENQA, ESU, EUA and EURASHE). Colin is overseeing the management of the Register and the support for the EQAR Register Committee, the management of the Database of External Quality Assurance Results (DEQAR) and EQAR's contribution to shaping the European Higher Education Area (EHEA). He was a member of the Steering Group for the revision of the Standards and Guidelines for Quality Assurance in the Europe-

HAR: How would you describe the difference between EQAR and DEQAR?

CT: EQAR is the register of agencies, DEQAR is the database of institutions and programmes. DEQAR is very directly linked to the EQAR registration so agencies can only upload their reports to DEQAR if they are registered.

HAR: What is EQAR's mission?

CT: Our mission is creating transparency and through that, enhancing trust in higher education systems

HAR: In DEQAR, there are more than 60,000 reports from 3000 institutions. This is about half of all the higher education institutions in Europe?

CT: It's probably more than 50% of all EU countries. In the European Higher Education Area, it would be difficult to know exactly how many institutions there are altogether. But it is correct: about 3000 institutions and the number of quality assurance reports and decisions is soon reaching the 70,000 mark. Even if it sounds
